iD Tech

Letter of Recommendation for Alexandra Sargent

October 9, 2020

To Whom It May Concern:

It is with much enthusiasm that I recommend Alexandra Sargent to your organization.

My name is Pete Ingram-Cauchi, and I am the CEO of iD Tech. iD Tech is the global authority in STEM education, teaching advanced subjects in computer science, artificial intelligence, game development, augmented reality, and other disruptive technologies.

Alexandra has risen to the top of the iD Tech Pathway™ system, and is designated as an L10 (Level 10), the ultimate accolade in our system. Alexandra has attained a skill mastery that only 378 out of 306,291 students have achieved. This is an extraordinary accomplishment. To reach L10 status, each student must have proven dedication and technical mastery while demonstrating outstanding soft skills including teamwork, problem-solving, and leadership.

Alexandra began their journey on the iD Tech Pathway™ in 2011 at University of Denver. Since starting with iD Tech, they have engaged in over 432 hours of project-based learning. From their coursework in *Game Creation - Arcade & Platform* to *Video Production and Special Effects for YouTube*, they've mastered skills in coding, robotics, game development, and digital arts.

I am ecstatic to recommend Alexandra. They are technically fluent and would be a tremendous asset to your organization. I encourage you to discuss their iD Tech journey, coursework, and summary of accomplishments, and to also inquire about their transcripts from iD Tech.

Sincerely,

Pete Ingram-Cauchi
CEO, iD Tech
