iD Tech

## Letter of Recommendation for Henry Burton

October 9, 2020

To Whom It May Concern:

It is with much enthusiasm that I recommend Henry Burton to your organization.

My name is Pete Ingram-Cauchi, and I am the CEO of iD Tech. iD Tech is the global authority in STEM education, teaching advanced subjects in computer science, artificial intelligence, game development, augmented reality, and other disruptive technologies.

Henry has risen to the top of the iD Tech Pathway™ system, and is designated as an L10 (Level 10), the ultimate accolade in our system. Henry has attained a skill mastery that only 378 out of 306,291 students have achieved. This is an extraordinary accomplishment. To reach L10 status, each student must have proven dedication and technical mastery while demonstrating outstanding soft skills including teamwork, problem-solving, and leadership.

Henry began their journey on the iD Tech Pathway™ in 2011 at MIT Campus. Since starting with iD Tech, they have engaged in over 488 hours of project-based learning. From their coursework in *Adventures in Game Design* to *Augmented Reality Mobile App Development*, they've mastered skills in coding, robotics, game development, and digital arts.

I am ecstatic to recommend Henry. They are technically fluent and would be a tremendous asset to your organization. I encourage you to discuss their iD Tech journey, coursework, and summary of accomplishments, and to also inquire about their transcripts from iD Tech.

Sincerely,

**Pete Ingram-Cauchi**
CEO, iD Tech
