

Letter of Recommendation for Srijan Ponnala

October 9, 2020

To Whom It May Concern:

It is with much enthusiasm that I recommend Srijan Ponnala to your organization.

My name is Pete Ingram-Cauchy, and I am the CEO of iD Tech. iD Tech is the global authority in STEM education, teaching advanced subjects in computer science, artificial intelligence, game development, augmented reality, and other disruptive technologies.

Srijan has risen to the top of the iD Tech Pathway™ system, and is designated as an L10 (Level 10), the ultimate accolade in our system. Srijan has attained a skill mastery that only 378 out of 306,291 students have achieved. This is an extraordinary accomplishment. To reach L10 status, each student must have proven dedication and technical mastery while demonstrating outstanding soft skills including teamwork, problem-solving, and leadership.

Srijan began their journey on the iD Tech Pathway™ in 2016 at Lehigh University. Since starting with iD Tech, Srijan has engaged in over 108 hours of project-based learning, culminating with their capstone experience in our most advanced, by-application-only program, AcademyNEXT, studying machine learning, AI, and data science.

From their coursework in *Role-Playing Game Design with RPG Maker* to *Advanced Laboratory for Emerging Technologies*, they've mastered skills in coding, robotics, game development, and digital arts. I am ecstatic to recommend Srijan. They are technically fluent and would be a tremendous asset to your organization. I encourage you to discuss their iD Tech journey, coursework, and summary of accomplishments, and to also inquire about their transcripts from iD Tech.

Sincerely,

A handwritten signature in black ink that reads 'Pete Ingram-Cauchy'.

Pete Ingram-Cauchy
CEO, iD Tech
